"Extra-Fashioned."

Few People Realize How Much These Two Words Imply of Comfort and Convenience.

They refer to the manner in which the LEWIS KNITTING CO.'S UNDERWEAR is shaped to fit across the chest, around the thighs, legs, arms, hips and neck,—and mean—more fullness where the form requires it without stretching the garment.

Now that you understand this—think how great a convenience it must be, how really gratifying not to be obliged to "take," as they say of shoes, your flannels on your own body that they shall fit. Because they are worn is no reason for believing that they fit you, they do not any more than they would if they were loose. When your flannels are tightly drawn by stretching as they are tugged and pulled on—the fibre is drawn—the fabric is thinned, and the result is that there is constant tension and wear, to say nothing of the discomfort of tightness.

THE LEWIS KNITTING CO.'S GARMENTS are made in union suits, shirts, drawers, pants and vests, of finest materials, are comfortable, easily adjusted and pleasant to the skin. They are not expensive, and when the wear and tear (particularly the tear) on the ordinary flannels is considered they are economical. They are "Extra-Fashioned" to fit naturally, tailor-trimmed and the Original Derby Ribbed Dress Reform Underwear, and the only underwear containing Lewis Tension Yoke, (patented), without which ribbed underwear is so unestisfactory.

HE RESTED WELL.

Mr. Blaine Passes a Refreshing Night

And is Better Prepared to Fight the Disease Which Brought Him Face to Face With Death.

WASHINGTON, Dec. 20.—Mr. Blaine has held for twenty-four hours the improvement which was noted in his condition yesterday morning. He rested well during the night, entered on the morning refreshed, and consequently is better prepared, to a very slight degree, to resist the ravages of the disease which has brought him face to face with death. To this extent there is encouragement for the family and the hosts of friends of the stricken statesman. The malady is organic, however, and in the nature of things must grow worse with time.

The callers at the house this morning were informed by the man at the door that "Mr. Blaine had passed a very comfortable night and was resting easily this morning." Dr. Johnston visited Mr. Blaine about 9 o'clock and remained a short time. At that time he summed up the condition of Mr. Blaine by saying: "Mr. Blaine is as well as he was yesterday morning and seems refreshed after a good night's rest." He added in answer to a question that Mr. Blaine had no trouble about sleeping. He declined to go into any statement with reference to the disease, but said that it was not from any desire to conceal the condition of Mr. Blaine but because of the personal feelings of the family. The doctor again stated that there was no basis whatever for the report that Mr. Blaine had been seized with a hemorrhage and could not account for the starting of such a report. He added that there had been no attempt to conceal anything from the public as to the real condition of Mr. Blaine.

There will be no consultations held at the house, but Dr. Johnston and Dr. Hyatt, who is a specialist in throat and lung troubles, will call together once or twice during the day, as they have done heretofore. About 10:20 o'clock a coupe drove up to the door and Mr. Damrosch, Mr. Blaine's son-in-law, alighted. His presence makes complete the personal household of Mr. Blaine.

NEW YORK, Dec. 20.—Dr. Alfred M. Loomis returned to this city last night from Washington, where he had been to see Mr. Blaine. To a reporter he said: "Mr. Blaine is in a very critical condition, yet he can not be said to be in any immediate danger. He has very sick man, and may die at any moment, or he may live for weeks. It is impossible to tell anything more definite about his case at present."

A special from Augusta, Maine, says it is known there that Mr. Blaine suffered an attack similar to Sunday's one week ago last Saturday. His friends in Augusta are disheartened and fear they will not see him again in life. One of Mr. Blaine's relatives says that Mr. Blaine has been losing strength ever since, but apparently recovered from his illness two years ago.

WASHINGTON, Dec. 20.—Congressman Boutelle, of Maine, is quoted as telling the following story: Mr. Blaine is suffering from exhaustion. He has drawn upon his gray matter for year after year without any regard to his health or the possibility of impairing his vitality. His book, "Twenty Years in Congress," will be a monument in itself to any man, yet it is only one of the many great things Mr. Blaine has done. It was composed with a rapidity that stands unequalled in literary history, unless the novels of Sir Walter Scott be excepted. Mr. Blaine's versatility is wonderful. I remember in the administration of Governor Garcelon, when the democrats were trying to steal the state from us, and when Maine was in fever heat and civil war seemed impending, Mr. Blaine was the chairman of the state committee and had charge of the republican fight. We had been endeavoring to get the governor to submit the questions at issue to the supreme court, but had not succeeded. Mr. Blaine led the fighting, was aggressive and unyielding, and of course nothing that he could say would be listened to by the other side. Presently there appeared a letter to the governor signed by Lot M. Morrill, who was known everywhere as a pure loving conservative republican, asking the governor to lay before the supreme court the questions at issue. The letter was mild in tone, frank and fair in its expressions, and adroitly put upon the democrats the odium of refusing to submit the dispute to arbitration. Public sentiment at once changed, the governor was obliged to submit the matter, and the decision was in favor of the republicans. For years Mr. Morrill received the praise of thousands of men, not only in Maine but throughout the United States, for his wisdom and tact. Mr. Blaine wrote that letter; Mr. Morrill simply copied and signed his name."

BEER TRUST.

The Rothschilds at the Head of a Gigantic Enterprise.

NEW HAVEN, Conn., Dec. 20.—The great European financiers, the Rothschilds, are the leaders in an enterprise which, in its line, surpasses anything of the kind ever conceived in this country. It is their purpose to establish an immense beer trust with headquarters in New York and with branch business offices and warehouses in at least a dozen New England cities as well as in the same number of western towns. Many millions of capital are to be used in backing the scheme, which has for its ultimate end the extinction of all the smaller similar concerns of the country or their absorption by the Rothschild syndicate. Sites have been already secured in this city, in Bridgeport, Hartford, Waterbury, Chicago, Columbus, San Francisco and several other cities and the organization of the gigantic enterprises is being pushed to a successful outcome.

REIGN OF TERROR.

The Tolbert Boys Avenging the Death of Their Family.

MERIDIAN, Miss., Dec. 20.—A reign of terror exists in Kemper county and every citizen with anything to do with the hanging of old man Tolbert and bringing Tom and Walter Tolbert to justice is now in hourly dread of his life. One week ago William Beckman, known to have been prominent in the war with the Tolberts, was assassinated while sitting by his own fireside. Beckham was expecting to be waylaid and had made his arrangements to leave the country the next day. Saturday evening last, about sundown, Colonel Adams, who was also identified in the fight against the Tolberts, was riding along a dreary road near his home, two white men, with their faces blackened, fired at him from ambush, but Adams' horse seeing the men, shied and saved the rider's life. Adams returned the fire with a shot gun but without effect. There is the greatest consternation existing, and no one goes abroad without being heavily armed. Dr. Stemmis, who played a part in the tragedy, has been compelled, through fear of assassination, to neglect a large practice and seclude himself at home. The disguised men are supposed to be Hanse and Charlie Tolbert, who, driven to desperation by the hanging of their father, the death of their brother, John, and the shooting and capture of their brothers, Tom and Walter Tolbert, have determined to avenge their cause. A band of determined Kemper county citizens came here this morning and armed themselves to the teeth for the purpose of wiping out the assassins. Both Tom and Walter Tolbert have been many years, and is a desperate character, being connected with an organized band of robbers and cutthroats.

CRIME'S DALLIANCE.

Two Tragedies, One at Erie, Pa., and the Other at Bloomington, Ill.

ERIE, Pa., Dec. 20.—William Morrison, a brother of Mike Morrison, the base ball player, got into an altercation last night with Abe Mowrey. During the scuffle Morrison drew a knife and cut Mowrey three times in the neck and once in the side. Morrison, who is but little over twenty-one years of age has figured in police circles for quite a while. Three years ago he was shot at Cleveland and was laid up for several weeks. He figured in a robbery at Ashtabula, Ohio, but escaped the penitentiary by turning state's evidence. He also served a term in the Pennsylvania reform school. Morrison was arrested shortly before 1 o'clock this morning as he was taking a train. Mowry lies in an unconscious condition and it is believed his wounds will prove fatal.

BLOOMINGTON, Ind., Dec. 20.—Yesterday William Guerney, a well-known citizen of Smithville, near here, had trouble with his wife. After the quarrel Guerney secured a revolver and shot himself in the head twice, dying in a few minutes. His wife said she forgave him before he died.

THE TEACHERS.

Their Institute at the City Y. M. C. A.

The sessions of the teachers of Allen county at the hall of the city Y. M. C. A. are proving quite interesting and are largely attended. At the meeting last night Dr. J. S. Clarke. This morning the meeting was opened with devotional services by Rev. Updike, followed by addresses from Messrs. Boone and Lane and Mrs. Campbell. Tomorrow evening Professor Boone will lecture on "The Individualism of Culture."

Blaine, jr., but was told that she is an invalid and could not be seen.

TWO VIEWS

Of the Result of the International Monetary Conference.

No Hope of Inducing other Nations to do Anything as Long as the Sherman Law is in Force.

WASHINGTON, Dec. 20.—Two views of the international monetary conference are given by the leaders of the opposing forces in the house of representatives.

Mr. Harter, of Ohio, one of the chief hard money democrats, says there can be no hope of inducing any other nation to do anything for silver while the Sherman law is in force, and the United States continues the monthly purchases of bullion provided for by that law.

"Suppose," said he, "you and I are walking down the street together and we come to a wall that is leaning over the sidewalk. I go up to it and try to hold it up, so that it will not fall and crush the passers-by. I call to you and ask you to come and help me, but you say, 'No; you hold the wall up and I will pass on out of danger.' That is just the situation about this silver matter. The United States is standing under the great mass of silver in the market trying to hold it up with the Sherman law for a prop, while the other nations are passing by out of harm's way and refuse to lend their assistance. But what is the use of trying to maintain two metals of different market values at a parity by legislation. It never has been done, and it never can be done, and it is surprising in this day to hear men of intelligence talk of the possibility of doing it. The fact is that the production of silver is increasing so rapidly that there is no hope for its restoration to use as a money metal. Why, I was talking with a man in New York the other day who told me of a mine out west that yielded over $30,000 per car load of ore. Talk about using silver for money; why the only use that is left for it is to make pots and pans and kettles out of it."

On the other hand, Mr. Pierce, of Tennessee, Mr. Bland's chief lieutenant, says: "The conference has demonstrated that the United States must act alone in this matter and that we can expect no immediate assistance from any European nation. It was shown very conclusively that neither England, Austria nor Germany will have any part in increasing the monetary use of silver, and the United States has some assistance in the Latin union. These great countries, England, Germany and Austria, exercise such powerful influence over the counties of the latin union, however, that there is little hope of doing anything until the United States leads the way. We have got to take the first step toward the remonetization of silver alone, and the other nations, or some of them will then follow after us."

BOY DESPERADOES

Commit an Atrocious Crime in Wisconsin.

OSHKOSH, Wis., Dec. 20.—John Anderson, aged fourteen, ran away from his home at Brannan, about two weeks ago and took a brother, aged ten, and his father's dog and gun with him. They went to the house of a neighboring farmer, Marcus Hemfeldt, a settler living alone. John proposed to his brother that when Hemfeldt came home in the evening they would kill him and live in the house all winter in true robber style. It was the plan, that the older brother hid himself behind a haystack and when Hemfeldt came they put two charges of buckshot into his head, covered his body with hay, and proceeded to take possession. Last Saturday a brother-in-law of Hemfeld came to the house and found the boys there. They told him Hemfeld was in the woods looking after his traps. He waited until Sunday morning and then went home, taking the younger boy with him. He questioned the little fellow and drew the whole story out of him. A party was organized, but on their arrival at the scene of the murder the assassin had gone. They followed the tracks through the woods towards the Sac railway. Fears are entertained that the desperate boy will shoot one or two of his pursuers, as he is well armed.

HAWKINSVILLE, Ky., Dec. 20.—Jim Bond, a negro, was lynched at Gutherie yesterday afternoon for attempting to outrage Mrs. Clarence Covington, well known, several days ago. At the time of the outrage he escaped, but was captured, Friday night and placed in jail at Gutherie, the jail being guarded. He was brought out of jail for trial yesterday afternoon, when he confessed his guilt. At 5 o'clock he was seized by unknown persons, taken out to a post near the depot and strung up.

TAMMANY DEMANDS

Nothing From Mr. Cleveland in the Way of Offices.

NEW YORK, Dec. 20.—Since the election much has been said about the demands for patronage which Tammany Hall would make upon President Cleveland. "Tammany Hall," said Richard Croker yesterday, "will ask Mr. Cleveland for nothing in the way of patronage or places. The organization supported him loyally and it will support his administration just as loyally. It will not embarrass him in the matter of appointments. Any he may make will be satisfactory to the organization, no matter who the lucky ones are. We have no requests to make." Mr. Croker was asked if he had any suggestions to make about cabinet appointments. "Most certainly not," he said. "Mr. Cleveland will select his cabinet as he thinks best. It is absurd to entertain the idea of any democrat embarrassing Mr. Cleveland in his administration. Such a course would certainly ruin any one who attempted it."

CHILI'S CASH

In Settlement of the Baltimore Affair in the Treasury.

WASHINGTON, Dec. 20.—The $75,000 paid by the Chilian government in settlement in full for all claims arising out of the Baltimore affair at Valparaiso were conveyed into the sub treasury at New York today. The draft for that sum was brought to this country by Minister Egan in October last. It was drawn on the bank of France and was payable thirty days from date of presentation. Minister Egan gave it to the secretary of state. It then went to the secretary of the treasury, by whom it was sent to the assistant treasurer at New York. Its negotiation was then entrusted to Seligman & Co., bankers, by whom collection was duly made through their agents in Paris, and this part of the transaction was closed by the deposit of the money at New York today. This necessary preliminary having been performed and the money now being in the actual possession of the government, arrangements will be made as soon as possible for its equitable distribution to the people for whom it is intended. This important branch of the transaction is in the hands of the secretary of the navy and it is expected that the matter will be closed up satisfactorily during the present administration.

MONROEVILLE.

A Newsy Letter From That Busy Little Town.

MONROEVILLE, Ind., Dec. 20.

Our schools are having a two weeks' vacation. The teachers are attending the county institute at the Summit city this week.

Ex-Postmaster Finen purchased the timber from a large tract of land belonging to M E Argo a few days ago. Mr. Finen will have it prepared for market and expects will find plenty of employment this winter.

The gas has not yet matured in Monroeville, but we are promised to have it by January 1st, so says the "Foghorn." It may be surface gas obtained by generation from the "east barrel."

Jacob Coulter is having 1,500 cords of railroad wood cut on his place west of town.

The G. A. R. boys are making extensive preparations for a grand feast New Year's eve in Peter's hall. The proceeds will be used to defray the expenses of the encampment which is to take place here next April.

Trustee Hoffman had a well-conducted teachers' institute at the Foster school last Saturday, likewise the one at Lee Franke, of Madison, at District No. 8.

The Knights of Pythias festival Christmas eve promises to be the gayest event of the season. Three lively contests will be on the board and great interest is already being manifested by the contestants.

Wells' city printers were at work Thursday evening running out the Breeze, the huge press toppled over, falling against the editor, lacerating one of his fingers and otherwise bruising him. Luckily the forms were not "piled," hence the paper came out only a little late.

The Methodists, Lutherans and Christian church each have a Christmas entertainment, and Santa Claus and his toys will be the center of attraction.

The town council will ask the Pittsburg company to place a watchman at the Main street crossing. The place is a dangerous passage, and the main thoroughfare of our little city, where many horses received serious injuries. The past two weeks demonstrated the great necessity of a watchman, hence the move. Frank Gfelt, while attempting to drive across the track on his way to church barely saved his life. Just as he was about to cross, the Keystone express, without warning, came thundering along at lightning speed. The horse reared already on the track and the monster only a few yards away, when, with presence of mind, he turned the frightened team to the side, thus upsetting the vehicle and throwing the occupants to the ground. Upon examination it was found that Mr. Gfelt had his right arm out of place at the elbow and Mrs. Gfelt, his mother, was slightly bruised. The same fate happened to Mr. John Cagnet, a prosperous farmer of Madison township, last Thursday. Only a moment longer and he would have been hurled into eternity.

Albie Fry, the adopted son of Martin Fry, of Madison township, is seriously ill at his home. Dr. S. E. Mentzer, the attending physician, pronounces the case gastro-enteric diphtheria, and at this writing little hope is entertained for his recovery.

FREIGHT WRECK.

A Grand Rapids Train Badly Wrecked at Kalamazoo.

No. 9, a north-bound freight train on the Grand Rapids and Indiana road, was wrecked one mile south of Kalamazoo last evening, piling a lot of cars promiscuously. The loss of property was considerable, but no one was injured. The tracks were torn up and completely blockaded for several hours, causing a suspension of traffic for awhile. The south-bound passenger train, due here at 12:40 this afternoon, did not reach the city until 2 o'clock, the delay being caused by the wreck.

Miss Louise Parnin, upon request, acted as president. Interesting papers were read and addresses delivered by each of the teachers. Miss Flora Miller was the secretary.

Representatives from the local organizations of boiler makers in Indiana met in Indianapolis to consider what legislation shall be asked for this winter. Fort Wayne, Logansport, Richmond, Terre Haute, Kokomo, South Bend, Elkhart and Garrett are represented. The delegates have decided to ask for a law creating the office of state boiler inspector. They say that there is urgent need of such an officer. They will ask that the law be so framed as to preclude the possibility of any other than an experienced boiler maker being appointed to the office.

MORE NATURAL GAS.

The Salamonie Company Pushing Things at Montpelier.

The Supply Rather Feeble Today but Will Be Stronger This Evening—A New Supply.

The natural gas supply was rather feeble today and enquiry at the offices resulted in the statement that the gas supply was coming through a smaller pipe today but by this evening the gas would be on in full force. The company has had a large gang of men pushing another pipe line into the gas fields for a new supply and the work on this new pipe is now almost completed. By its aid the company has no fears but that a bountiful supply of gas will be always on hand for Fort Wayne consumers. The following dispatch was last night sent out from Montpelier:

"The Salamonie Gas company is attempting to force a high pressure gas line through this town. A hundred men, under direction of Superintendent Huffman, are at work on the line and will work all night in order to get through town before officers arrive from Marion with a restraining order. Citizens are indignant and there is talk of organizing to prevent further work. A collision during the night is possible."

The officers of the company refused to talk over the matter, but said that the line was almost through Montpelier, and Fort Wayne would have the benefit of the new supply in a few days. There was no collision between the citizens and men at Montpelier, however.

A NEW HOSPITAL.

Eight Acres of Land Donated for the Purpose.

New York Capitalists Will Join With Local Rooted Men to Establish a Hospital and Water Cure.

Fort Wayne is to have a new hospital, or rather a series of hospitals. Eight acres of ground near the city have already been donated and early in the spring ground will be broken for the erection of several fine new buildings—each one of which will be an ornament to the city. A stock company is now being organized to go into the enterprise. The members of the company will be eastern capitalists and a number of our Fort Wayne moneyed men. The promoter of the scheme is a gentleman from New York who is now in this city, and who has strong financial backing. The hospitals will consist of a hospital for the treatment of women and a lying-in hospital, modeled after that of Dr. Joseph Price, of Philadelphia. Connected with the hospitals will be a large hydropathic establishment. Mineral wells will be dug and an elaborate system of baths put up. Other hydropathic appliances will be also introduced. The establishment of the enterprise will require the expenditure of thousands of dollars in this city and when once in operation will be a lasting benefit. A prominent physician of Fort Wayne, who is interested in the project, will leave the latter part of the week on a tour of inspection through the east and will visit all the large hospitals of a similar nature.

WILLING TO SAVE.

The Plain Proposition the Plymouth Institute Company Makes to Drinking Men.

Some curious illustrations of the force of the appetite for drink were narrated today by Mr. William P. Cooper, secretary of the Plymouth Institute. The statements were those of drinking men who had been cured of their distressing habit at Warsaw.

A carpenter lived with his family on State street, near Fortieth street, Chicago. He was employed on Washington street, three miles away. Every morning his wife gave him ten cents to pay his fare on the cable road and every morning the ten cents was used for a drink of whisky, the victim of alcoholism preferring to walk six miles than go without his morning nip. This man was born in Fort Wayne and at the close of his term of treatment revisited this city to urge certain drinking friends to go to Warsaw, and one of them will start tomorrow.

A postmaster of a town on the Wabash road became so addicted to the habit of drinking that he was used to keep a five gallon keg in his office, to save himself from the odious reputation that follows the frequent saloon visits and besides obtain a wholesale rate on his liquor. This man had spent his all to gratify an appetite that is now wholly forever lost and is a practical farmer. He is a brother of George F. Felts, who recently resigned as county superintendent of schools.

In 'Squire France's court Sarah Tibbetts has begun attachment and garnishee proceedings against Frank Hitchcock. The case is set for January 6 at 9 o'clock.

Willie, the son of Deputy Sheriff Albert Metching, is quite ill.

Mrs. A. Rackleaffer, of Mayville, is the guest of Mrs. Clausmier, at the jail residence, this week.

William Ludwig has qualified as guardian of the minor heirs of Mary Mc-Glutting.

County Auditor Glutting and his assistants are busily engaged in arranging for the annual settlements.

F. J. Hayden has sold to city of Fort Wayne ground in E. Hanna, sr.'s, addition, for $2200; John H. Meyer of Sylvester Bower, lot 5, Rau's sub division, for $925.

Frank Ankenbrunch has filed with the commissioners a claim for $2,000 damages against the county. His wagon upset on a roadway near Academy station and in the wreck he sustained injuries.

James Worsham, indicted for manslaughter, being one of the parties involved in the Montone shooting affair in August last, has been acquitted by jury trial, at Warsaw. Two other charges will rest against Mr. Worsham to be tried at the next term of court.

In 'Squire Tancey's court the case of Himonius M. Studor vs. Erwin Whitney, for the possession of real estate and damages, is set for Thursday at 9 o'clock a. m.

The case of Elton Fleming vs. W. S. Stahl comes up in 'Squire Tancy's court on the 22d at 10 o'clock.

In 'Squire France's court Sophy Fry has begun attachment and garnishee proceedings against her son, Henry Fry, on account of board. The case is set for January 3 at 9 o'clock.

DEATHS AND FUNERALS.

Sad Death of a Young Man From the Old Country—Other Deaths.

Last evening, at the home of his sister, 73 Smith street, occurred the death of Henry Tomcke at the age of seventeen years, with Bright's disease. Six weeks ago the boy and his mother left their home in Germany and only ten days ago landed on American soil. They came direct to this city to visit relatives. The lad was taken ill immediately after arrival and slowly sank till death ended his sufferings. The funeral will be held Thursday afternoon at the residence at 2 o'clock, the Rev. Juengel, of Zion's Lutheran church, officiating.

Mary Dammoy, a little Arabian child, died yesterday morning. The funeral will be under the charge of the township trustee.

Walter Henlein, the nine-months'-old child of Mr. and Mrs. John Henlein, of No. 18 Wefel street, died of bronchitis this morning. The funeral will be held Thursday afternoon, at 2 o'clock, from the family residence.

The infant child of Mr. and Mrs. Lieut Otten, of No. 42 Force street, died of exhaustion yesterday afternoon.

COMING LEGISLATURE.

Numerous Candidates for the Many Positions.

Not Less Than One Thousand Persons Who Hope to Be Recognized—Chances of Various Aspirants.

The legislature will meet two weeks from Thursday. As the date for the meeting draws nearer the candidates for the various positions to be filled by the body are becoming more numerous and more aggressive in their solicitation of votes. It is estimated at democratic headquarters that there are not less than one thousand persons who are expecting to get some sort of a position around the legislature. The majority of the place seekers want clerkships.

Concerning the situation the Indianapolis News says: "The speakership contest is the one of most interest. The candidates have so far conducted their canvass largely by mail, but it is expected that next week they will all establish headquarters in this city, and be prepared to greet the members as fast as they come to the city. There are four candidates for the speakership. They are James B. Curtis, of this city; W. A. Cullop, of Vincennes; Samuel M. Hench, of Fort Wayne, and Hugh D. McKinnon. The democratic politicians here seem to think the race is between Cullop and Curtis, with the chances in favor of Curtis. A few weeks ago there was much talk about the opposition of the country to candidates proposed by Indianapolis, but there is not much of that sort of talk heard now. Reports from over the state indicate that Curtis will have the support of nearly all the old members who have been returned and of many new country members. James B. Patten, warden of the southern prison, says that down in his part of the state it is being taken for granted that Curtis will be the next speaker. The contest will really begin in earnest a week from next Monday, when the members of the legislature will begin to arrive for the session. As the office is looked upon as a stepping stone to something better, it is expected that the contest this year, as heretofore, will be interesting. J. M. Pippen, of Tipton, has concluded not to be a candidate.

"So far there are three candidates for clerk of the house of representatives. They are Charles E. Crawley, of Sullivan; John D. Carter, of Orleans, and Ben Harrell, of Ripley county. There are numerous candidates for doorkeeper of the house, and something like 200 men who desire to get on the chief doorkeeper's pay roll.

"Dan Stanton, of Hammond, is a candidate for re-election as secretary of the senate, and it is believed here that he will be retained. So far as the democrats here are informed he has no opposition. There are many candidates for doorkeeper of the senate. Three that are working hard for the place are O. T. Wells, James Dougherty and Ed. Newland, all of this city. Mr. Wells was assistant doorkeeper during the last session, and his friends think his chances for getting first place this year are excellent.

"The republicans will go through the formality of nominating a candidate for speaker. C. A. Lindermuth, of Richmond, desired to have the honor of receiving the vote, and T. H. Suher, of Madison, is also willing to accept the vote as a compliment. The vote is regarded as a designation that the man complimented is to be the leader of the minority in the house, and it is therefore considered worth seeking."

RIGHT AT HOME.

A Columbian Exposition in Fort Wayne.

A small sized Columbian Exposition can be seen in the show windows of Geo. DeWald & Co. in the corner window is represented a merry-go-round in three distinct elevations and circles, and the figures representing all nations. In the second window there is a real live Santa Claus, as large as life. This feature of the holiday window makes it, without doubt, as described in the language of an admiring boy gazer, "The boss window." As the veritable Santa Claus eales the ladder to the top of the delightful looking house, wreath can be seen a couple of wretchedly appearing little newsboys, who seem from their surroundings, to have not a friend in the world, except kind old Santa Claus himself and four white rats which play around them. On the the opposite side is shown the interior of the house occupied by a poor ragged little newsboy, who sits on the floor crying as he looks at the pile of unsold papers lying beside him, while back of him on a couch of straw lies his younger brother in the final stages of disease. On the wall is hung the motto, "What is Home Without a Mother?"

Another window presents quite a lifelike theatrical exhibition with its miniature stage, beautifully painted scenes and richly attired audience, which seem entirely satisfied with the performance of a minstrel troupe, a couple of whose dancers they have evidently encased several times.

These windows are attracting great crowds, and the interest manifested is a great credit to the designer, Mr. Rosenthal. The show exhibited in the windows of this popular firm must be seen to be appreciated.

Are You Squirming?

And is it pain that causes you to squirm? Rheumatism will make any one wince. Counteract it, as you can readily do, at the outset with Hostetter's Stomach Bitters, which expels the rheumatic virus from the blood and promptly relieves the tortures that it produces. The evidence in its behalf on this point is ample and conclusive, and embraces the deliberate affirmations of many medical practitioners. Like all standard preparations, the Bitters deserves a persistent trial, which if it receives, the happiest and most thorough results may be confidently anticipated. For malarial, kidney and liver complaints, neuralgia, nervousness indigestion and loss of flesh and appetite it is a world famous remedy. Convalescence after debilitating ailments is much facilitated by it.

WORLD'S MUSEUM—A new play and curio hall attractions

INAUGURATION day, the 4th of March, will come on Saturday.

TOMORROW will be the shortest day of the year, and then the days will begin to lengthen.

A GOOD big snow would help the holiday trade wonderfully and bring Christmas cheer to all.

THE merchant who wants your holiday trade and sells at the lowest prices, is the one who advertises.

THE Christmas turkey has but a few more days to live. Many of them have already left their roost forever.

THE open winter we have been having this year has allowed considerable building to be done in this city.

THE police should keep their eyes on the gamblers. The city ought to be rid of these human leeches, root and branch.

THE holiday gaities promise to be numerous. Then will "youth and beauty meet to chase the gloing hours with flying feet."

CONGRESS will probably adjourn Thursday for the holidays. These anteholiday sessions might be dispensed with in the interest of economy.

THE Sherman-Foraker fight has broken out afresh in Ohio over the squabble between Secretary of State Poorman and his predecessor, Dan Ryan.

THERE is talk now of extending the world's fair until the fall of 1894. This would probably give everybody an opportunity to see it without keeping it open on Sunday.

THE teachers of Allen county, who are holding their annual institute in this city this week, are among the best in the state. Allen county is at the head of the list in regard to her public schools.

THE electoral vote of North Dakota will be equally divided in the electoral college—one of the three will be for Harrison, one for Cleveland and one for Weaver. The republican elector had a majority of only eight.

CONGRESS is talking about increasing the tax on whisky. The present tax on whisky produces about $90,000,000 annually. The increase proposed in the bill will give almost 40 per cent. more revenues, or a total of about $125,000,000 from distilled spirits alone.

DID you ever notice that the days of the month and week are always the same in March and November, in April and July, and in September and December? That is, if March come in on Monday, November will do likewise, the same rule applying to the other months named above. In leap year, January is with April and July; in the other years with March and November. The last day of February and the fourth day of July always occur on the same day of the week; the same is true of May day and Christmas.

Trashy Tracts.

A recent complaint of the summer reader is that he is solicited to read tracts thinly disguised as novels. Some zealous young woman, whose soul is stirred by sociologic problems—by the inequality and pecuniary dependence of women, by the neglect of children, by the degradation of girls—is moved to write a story. Her style is a compound of rhetorical scolding and the report of the district reader; her characters are cut of pasteboard, and, if drawn from "high life," exhibit only the writer's ignorance of that life; her philosophy is crude and her dialogue is without discrimination of character or tone. The motive she happens on is very likely a good one, and in the hands of a master the story would have power and influence, but used as she uses it the outcome is as weak in effect as it is offensive to good taste. The summer reader says that these writers are making a slop-bowl of literature. Harper's Magazine thinks it would be more polite if he said waste basket. The newspaper critic, in his haste, sometimes characterizes these stories as strong, because the writers use coarse language and the technical terms of physiology and legal enactments, but even the painter of horrors knows that he must keep within the limit of his art, and that his effective work is done in fine touches and by delicate coloring. The same epithet "strong" is applied to what may be called studies in morbid anatomy, whose only claim to be considered realistic is one that might attach to a description of a neglected gunshot wound in mephitic hospital. This is not scientific enough for the columns of a medical journal, and the summer reader says that this failure does not give it the slightest literary quality.

Injudicious Charity.

On the subject of charity as a cause of poverty a writer in Century writes concerning the effects of the indiscriminate distribution of money among the poor of London. Among other things he says that the lord mayor's fund of three hundred and fifty dollars, which was flung out, by a charitable impulse, to the poor of east London a few winters ago, caused far more poverty than it cured. Many who were getting on fairly well without it left their work to depend upon this fund, and not only forfeited their self-respect, but sadly demoralized themselves by the deceit which they practised in getting it. "The tendency of the fund," wrote Mr. Barnett shortly after its distribution, "has been to create a trust in lies. Its organization of visitors and committee offered a show of resistance to lies, but over such resistance lies easily triumphed, and many notorious evil-livers got by a good story the relief denied to others. Anecdotes are common as to the way in which visitors were deceived, committees hoodwinked, and money wrongly gained." The effect of this distribution upon the applicants at large, as one visitor sums it up, was this: "The foundation of such independence of character as they possessed has been shaken, and some of them have taken the first step in mendicancy, which is too often never retraced." Poverty which must be relieved is always with us; the problem is to administer the relief in ways which will not tend to pauperize the recipient. That lesson has been very imperfectly learned, and the net result of a large share of our well-meant charities is the increase of pauperism.

Pernicious Literature.

A sixteen-year-old boy was convicted of murder in the first degree in New Jersey. It was the occasion of a terrible indictment by a high authority, the presiding judge, of the vile fiction with which our country is flooded. It should arouse public sentiment against the sale of a class of tales sold on almost every street corner. After speaking of the character of the literature which the boy had read, Judge Depew said that it was the first time he had ever seen such novels, and that he felt it was the most pernicious literature that could possibly fall into the hands of children. He said further, that upwards of twenty people in the city were engaged in selling such literature to boys and girls, and from an authoritative source he had obtained an estimate of the relative ages of persons brought before the courts for offenses involving attempts to rob and steal and similar offenses. The figures given were: Persons charged with larceny under eighteen years, thirty per cent.; between eighteen and twenty-three, sixty per cent., making ninety per cent.; over twenty-three, ten per cent. It is safe to say that of persons charged with some form of stealing, over sixty per cent. are under eighteen years of age.

ANGLOMANIA, it seems, is even more rife among American women than it is among American men. An Englishman by birth who recently became an American citizen, tells a contemporary that out of twenty or more American women to whom he confided that he had especially forsworn his allegiance to "Her Most Gracious," only one—and she was born and bred in Canada—congratulated him. Most of the others, including his sister-in-law, said: "Oh, I'm so sorry. You were so interesting as an Englishman;" or words to that effect. The minority passed over the matter in silence, ignoring the fact that it was an epoch in the ex-Englishman's life. Au contraire, every American man to whom he intrusted the joyful news made a fuss over it.

THE national board of fire underwriters estimates the fire waste in this country as follows: For 1882, $84,000,000; 1883, $100,000,000; 1884, $110,000,000; 1885, $102,000,000; 1886, $104,000,000; 1887, $119,000,000; 1888, $110,000,000; 1889, $123,000,000; 1890, $109,000,000; 1891, $143,000,000.

SCIENTISTS have discovered that the memory is stronger in summer than in winter. Among the worst foes of the memory are too much food, too much physical exercise, and, strangely enough, too much education.

AN idea of the immense size of the horticultural hall at the world's fair may be gained from the statement that it can contain the horticultural halls of the centennial, New Orleans and Paris expositions.

JUSTICES' OFFICES.

A Correspondent Who Thinks There Is Room for Plenty of Improvement and Calls Attention to the State Constitution.

EDITOR SENTINEL:

While our city government and citizens are agitating the want of a new city charter, would it not be well occasionally to call the attention of our representatives to a wholesome change in the laws governing the justice offices?

Our representatives received thousands of votes on the theory that they would assist in amending the obnoxious provoke law and overhaul the laws governing the justice offices generally. This being so, I desire to call their attention to article I, section 66, of the constitution of the state of Indiana, which reads as follows:

"No man's particular services shall be demanded without just compensation"

Is it not a fact that our justices pay their own office rent, fuel and stationary, out of their own pockets and try hundreds of cases where they never receive a cent for their services? Is there not a serious conflict between our constitution and the statuatory law upon this subject?

Would it not be a grand idea for our representatives to labor in assisting to change the laws and the odious fee system and, if successful, thereby placing the justice offices of our cities especially, on a high footing for honesty and respectability? ***

ELECTION OF OFFICERS.

The Caledonians Hold an Interesting Meeting and Elect Officers.

The Caledonian society last evening at their hall, 76 Calhoun street, held their annual meeting for the election of officers, which resulted as follows: President, Hon. J. B White; first vice-president, David McKay; second vice-president, Francis Burgess; secretary, Thomas Duncan; treasurer, Robert Dickie; marshal and librarian, Thomas Sinclair; trustee, Thomas Stewart; standard-bearer, James Gillie.

During the past year the society has held quite a number of creditable socials and entertainments, which were largely attended by the appreciative public and their friends.

The following constitutes a list of the interesting subjects given by some of its members during the year: "Choice Selections from Byron and Other Poets," by Mr. Burgess; essay on "Man's Position in Society," by Mr. J. B. Brown; "The Application of Electricity as a Motive Power for the Propulsion of Our Street Cars," by Mr. Thomas Duncan; an original poem, "A Campaign Parade," by Mr. George McKenzie; an illustrated lecture by Capt. A. H. Dougall on his recent travels and sojourns in Alaska and the far northwest; an address on "Success in Life," by Hon. J. B. White, and a musical entertainment given by Messrs. Hugh McLetchie, John Gillie, David Miller and Thomas Stewart.

Those of the members who have volunteered for the first quarter of next year are Mr. James Gillie, who will read a paper on "The Difference Between European and American Agriculturalists; an address on "The Auld Scotch Game of Curling on Ice," by Mr. David McKay; an address, "Reminiscences of Twenty Years' Experience in America," by Mr. Thomas Stewart; a paper on "The Production of Light by Electricity," by Mr. Thomas Duncan.

The society is in a most flourishing condition.

HEROES OF THE NAVY.

BATTLE SCARRED VETERANS AT THE CAPITAL.

Glimpses of Life at the Metropolitan Club Where Heroic and Kindred Spirits Gather—Some Expert Spinners of Yarns.

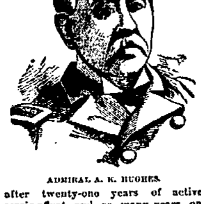

[Special Correspondence.]

Edward Payson Crosby

WASHINGTON, D.C., Dec. 6.—The Metropolitan club is the gathering place for heroes of the old navy. The better part of their lives has been devoted to maintaining the honor of the stars and stripes in home and foreign waters, and in their time they have made history.

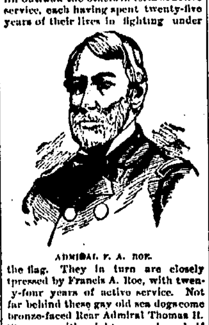

As the hour for dining approaches at the Metropolitan (for the nautical group always makes it a point to mess together) the chat becomes, if anything, more animated. It is not an uncommon sight to witness a round dozen of these grizzled heroes sit down at table together. Almost all, without exception, are entertaining raconteurs. Rear Admiral Worden, who,

ADMIRAL A. K. HUGHES.

after twenty-one years of active service afloat and as many years on shore duty, was retired with brilliant honors and the highest pay of his grade, has told many a stirring chapter of his life across the table to such listeners as Rear Admiral Harry Walke, whose stretch of eighteen years' active service and eleven ashore places him also very high on the retired list, and who frequently comes from his home in Brooklyn to join these reunions. Another Rear Admiral, Aaron K. Hughes, who, like Worden, lives in Washington, and who can point to nineteen years spent on ship's deck, is seldom absent from these gatherings.

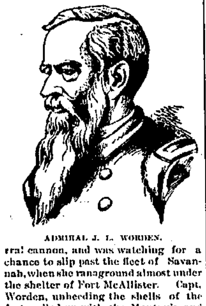

Still another, the gallant John H. Upshur, who ranks as a senior, having been afloat on active service fully twenty-two years, while Rear Admirals John C. Febiger and Samuel R. Franklin outrank the others in term of active service, each having spent twenty-five years of their lives in fighting under

ADMIRAL F. A. ROE.

the flag. They in turn are closely pressed by Francis A. Roe, with twenty-four years of active service. Not far behind these gay old sea dogs come bronze-faced Rear Admiral Thomas H. Stevens, with eighteen and a half years; Rear Admiral Thornton A. Jenkins, with seventeen years, and Samuel Phillips Lee, with nineteen years to their credit. A fine bunch of records, truly, and one of which the nation is not forgetful.

One tale they are fond of telling is the incident in the career of Worden, when, as Captain of the ironclad monitor Montauk, he sank the Nashville, which had carried a cargo of arms from England to Wilmington for the Southern troops. She was loaded at the time with cotton, and carried several cannon, and was watching for a

ADMIRAL J. L. WORDEN.

chance to slip past the fleet of Savannah, when she ran aground almost under the shelter of Fort McAllister. Capt. Worden, unheeding the shells of the fort, sailed up with the Montauk, and after riddling the Nashville, blew her up with an explosion that was heard for miles.

Old sailors, like old soldiers, are skeptical of innovations in their own profession. They were so when Ericsson demonstrated the superiority of the monitor over the old-line warship They are so now, to a certain extent, with respect to some of the improvements in our new navy. Theirs were the days when sailors, like soldiers, had to fight more in the open and at shorter range, in clear view of the enemy. They not only knew of the danger in front, but they saw it and had to face it. Mingled with their admiration of the new navy—with its long range steel guns between decks, with machinery as delicate as that of a watch; with its great ships of steel, its death dealing turrets, its dynamite cruisers and new-fangled torpedo boats—there comes a sigh of regret for the old days when the close contact made the better battle, and when individual bravery counted for something.

But it is merely a sigh, nothing more, for our Rear Admirals are quick to perceive the advantage the possession of a magnificent new navy gives us, and its superiority in many respects to that of other nations. They never tire of telling each other of the newest and latest devices in marine gunnery, and in the many inventions that have crowded close upon each other's heels during the last decade, and which have combined to give our vessels a swiftness and adaptability for defense such as those of few powers possess.

CAPTAIN LETTARBLAIR.

E. H. Sothern Draws a Good House at the Temple.

The best play of the season at the Temple was "Captain Lettarblair." A fashionable audience was present and the play thoroughly enjoyed by all.

In the character of "Captain Lettarblair Linton" Mr. Sothern has found a part that fits him like a glove. It is true that the long strides, the inquiring, uplifted eyes and the tossing of his head are characteristics strictly Sothern and not "Lettarblair," but they are not out of place in the character which the actor assumes. These mannerisms have become a part of Sothern's acting, and it seems impossible for him to rid himself of them. They are not disagreeable—far from it—but they are peculiar to the actor and not to the living picture he is painting. This pretty play of Miss Merrington's is interesting from start to finish; the story is unusually well told, and the lines are bubbling over with pure humor and natural wit. There is little fault to be found with the play on the whole, unless it be the love scene in the last act between "Lettarblair" and "Fannie," which borders on the farcical. It seemed hardly probable that those ardent young lovers, after a long separation and delayed misunderstanding, should sit there under the trees, with no one around, and go through long-drawn-out preliminary nonsense before fixing upon a mutual agreement.

DURING a recent discussion of war and defense, Edison declared that, with a head of water and a handful of men, he could defy an army. He would surround his fort by an immense electric plant, supply his men with hose, and, when the enemy came within his circuit, play streams of water on them which would make them the connecting link in a powerful current and mow them down by hundreds.

A Million Friends.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs and Colds.—If you have never used this Great Cough Medicine, one trial will convince you that it has wonderful curative powers in all diseases of Throat, Chest and Lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at Drier & Bro.'s drug store. Large bottles 50c and $1.00.

Deserving Praise.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. Dreier & Bro., druggists.

Bucklen's Arnica Salve.

Railroad Rates for the Holidays.

On December 24, 25, 26 and 31, 1892, and January 1 and 2, 1893, the Lake Shore and Michigan Southern railway will sell reduced rate tickets between all points on its line. Tickets will be good going date of sale and for return until January 3d, 1893. 19-24

Stop-Over Privileges Discontinued.

To avoid manipulation and illegitimate use of its tickets, the Wabash Railroad company has found it necessary to discontinue the granting of stop-over privileges on all kinds and classes of tickets, and after January 1st, 1893, passengers will be obliged to purchase tickets from point to point. The new arrangement, however, which will be fully explained by any of the company's agents, will be found to be equally as convenient to the traveling public as the old, while the company will be enabled to protect itself from imposition. 17-13t

ONE not infrequently sees a news item to the effect that the brain of some criminal has been turned over to the learned anatomists for study and discover wherein it differed from the ordinary human brain, and often with the idea of throwing some new light on the character of a criminal or the reason of his depravity. At a late meeting of the Neurological Association this subject was up for discussion, with the result that nothing is yet ascertained that can be practically useful. It is not possible to pick out the criminal's brain from a dozen others by any special marks, fissures or evidence of criminality. It may be worth while handling criminal brains over to the doctors for study, for only by so doing can there be any discoveries in this line, but up to the present time there has been very little discovered worth mentioning.

Rev. Sylvanus Lane,

Of the Cincinnati M. E. Conference, makes a good point when he says: "We have for years used Hood's Sarsaparilla in our family of five, and find it fully equal to all that is claimed for it. Some people are greatly prejudiced against patent medicines, but how the patent can hurt a medicine and not a machine is a mystery of mysteries to me."

Hood's Pills cure Liver Ills.

IT is the great art and philosophy of life to make the best of the present, whether it be good or bad—to bear the one with resignation and patience, and to enjoy the other with thankfulness and moderation.

Stood the Test.

ALLCOCK'S POROUS PLASTERS are unapproachable in curative properties, rapidity and safety of action, and are the only reliable plasters ever produced. They have successfully stood the test of over thirty years' use by the public; their virtues have never been equalled by the unscrupulous imitators who have sought to trade upon the reputation of ALLCOCK'S by making plasters with holes in them, and claiming them to be "just as good as ALLCOCK'S," and they stand to-day indorsed by not only the highest medical authorities, but by millions of grateful patients who have proved their efficacy as a household remedy.

Beware of imitations, and do not be deceived by misrepresentation. Ask for ALLCOCK'S, and let no solicitation or explanation induce you to accept a substitute.

OSMAN DIGNA is alive once more. He will be due to die again some time next week. A man with all his lives would be a fine addition to the census of a boom town.

Shut Down.

That's what they call it when the mill closes and the work stops. The same term is applied to the liver when you suffer with Biliousness and Sick Headache. There is no action. A few doses of Simmons' Liver Regulator will soon set the liver going properly, and keep the bowels regular. Take the Regulator now and then to prevent any re-occurrances of these distressing symptoms.

RAILWAY AFFAIRS.

Death of Dennis Shea, a Former Pittsburg Fireman.

Accidents, Incidents and Personal Mention of the Men Who Work in the Shops and Offices.

Dennis Shea died at 9:30 o'clock last night at the home of his father, Patrick Shea, in New Haven. The deceased was attacked about eighteen months ago with a skin disease which baffled medical skill and culminated in blood poisoning and death. He was thirty-two years old and unmarried. For five years Mr. Shea was employed by the Pennsylvania company as a fireman and during that time he made this city his home, living with his brother, Engineer Michael Shea. He was a jolly, good souled fellow and was a favorite in the circles in which he moved. Sickness compelled him to resign his position about a year ago, and since that time he has been unable to do anything. During his service on the railroad Dennis was a member of the Brotherhood of Locomotive Firemen, but when he retired from railroading he allowed his membership in the order to lapse. The funeral service will be held at the St. John's church, in New Haven, at 9 o'clock Thursday morning.

An eastern conductor proposes that railway employes establish the principle of profit sharing by acquiring ownership interest in the railways. Thus he suggests that the 100,000 employes in the state of New York by putting aside $1 a month might in a year have a fund of $1,200,000 with which they could buy a block of New York Central stock and thus obtain a voice in the management. At the end of another year they would have another $1,200,000 to invest, and so they could continue to obtain increasing power in the railways, and would also feel increasing interest in the prosperity of the companies. There are great possibilities in the suggestion, but it would be hard to secure the complete co-operation and the persistent adherence necessary to carry it into effect. It would be a grand thing for the railways and for the people, if railway employes were largely the owners of the roads which they serve, though unfortunately in the case of the majority of these properties it would not be so good a thing for the employes, because the companies whose stocks pay any dividend are the exception rather than the rule.

Weak and Strong Teas.

The weaker teas of China are being diplaced by the stronger teas of India and Ceylon, and within the past five years, while the import of Ceylon teas into Great Britain has increased fivefold, the quantity of China tea imports has diminished about one-half. This illustrates a phase of colonial policy that is becoming very noteworthy over the water. Everything has been done to encourage Ceylon tea growing and make a market for the product in Great Britain.

FOREFATHERS' DAY

In Plymouth Church, Wednesday Evening, Dec. 21.

For the first time, probably, in the history of Fort Wayne, Forefathers' Day will be observed in Plymouth church. The thought of the observance is to study those elements of the Puritan character, that have been so potent an influence in the building up of our nation. There will be music under the direction of Professor Miles, a historical sketch by Miss Leonard, principal of the Jefferson street school, a poem read, and an address by the pastor, J. S. Almslie, upon "The Puritan Character." Exercises begin promptly at 7:30 and a social hour will follow. The public is invited.
